lacrimilla®

10 ***single dose sterile***

vials 0,5 ml each

MEDICAL DEVICE

NOT CONTAINING CONSERVATIONS

LACRIMILLA is a FAMILY product

Lacrimilla, come in convenient sterile single – dose vials, eye drops, made with refreshing natural substances, lubricants and soothing properties are indicated for the irritation, burning,redness, tearing, itching, dryness and eye fatigue is often caused by prolonged stay in front of video screens computers or televisor

Composition: Euphrasia distilled water, Arnica distilled water, Bryonia distilled water, Ruta distilled water, Chamomile distilled water, sodium phosphate monobasic, sodium phosphate dibasic, sodium chloride, purified water.

LACRIMILLA is an innovative phyto product that protects, moisturizes and soothes even the most irritated eyes.

It has been developed in the form of extremely convenient and easy to use 10 monodoses in sterile vials and is designed for both prophylaxis and treatment of reddened and tired eyes.

Directions for use: instill 1 or 2 drops in each eye 2 or 3 times a day.

LACRIMILLA is a medical device and is a combination of distilled water of five herbs known from antiquity for its beneficial effects on the human eye.

lacrimilla®

protective, lubricant and calming for irritated eyes

Eye drops single-use vials

Properties: LACRIMILLA, come in convenient sterile single – dose vials, is a specific adjuvant for the prevention and treatment of red and tired eyes. Indicated for ocular hypersensivity with irritation, burning, dry eye, awareness of foreign body in eye and lachrymation and eye strain caused by external agents such as: dust, wind and sun, smog, pollen, dry heat, air-conditioning, extended, use of video and contact lenses.

Main components characteristics: the distilled waters, also called Hydrologic, are obtained after a steam distillation of fresh herbs, and represent the aqueous fraction witch separates from the essential oil.
Chamomile distilled water is utilized because of its moisturizing and refreshing properties.
Arnica and Bryonia distilled water have anti-redness and anti-itching actions.
Euphrasia distilled water has antiseptic, refreshing and rehydrating activities.

Indications: LACRIMILLA is useful to soothe and prevent eye irritation, alleviate redness and burning awareness caused by long visual efforts or external agents. Particularly indicated for dry eyes (diminished quality or quantity of tear production) and for contact wearers.

Directions for use: instill 1 or 2 drops in each eye 2 or 3 times a day.
For a correct use of the product:
- separate the vial from the other vials
- open the vial by turning the cap
- apply the product by lightly pressing the single-dose vial

Separate | Open | Use

⚠ **PRECAUTIONS**: the product is for oftalmic use only; do not use if the cap-sealing is damaged; do not use if hypersensitive or allergic towards one or more components: if you experience eye disorders, stop the use of the product and consult a doctor; do not use after the expiry date; to prevent contaminations, do not touch the tip of the vial during the use; LACRIMILLA eye drops does not contain preservatives, so you have to throw away the single dose vial after the use, even if partially used; keep away from the reach of children.

ABO PHARMA

KINDERFIT - Liquid multivitamins for children with orange and pear flavor, 150 ml

10 vitamins

One tablespoon of liquid multivitamins provides 100% of the daily vitamin demand for malnutrition.

Contributes to the normal condition of the bones and teeth to maintain normal vision in order obtained by keeping the feeling of tiredness and fatigue and to protect cells from oxidative stress, promotes healthy growth and appetite.

The pleasant fruit flavor of orange and pear makes the liquid multivitamins **KINDER FIT** desirable and liked by the children. It is also recommended for children actively engaged in sports and / or mental exercise.

Each box contains a special gift for every child!

Composition of 10 ml: Vitamin A (Beta-Carotene) - 600 µg RE (75%); Vitamin B1 (Thiamine Hydrochloride) - 0.7 mg (64%); Vitamin B2 (Sodium Riboflavin 5 Phosphate) - 0.8 mg (57%); Vitamin B3 (Nicotinamide) - 9 mg NE (56%); Pantothenic acid (Calcium D-pantothenate) - 4 mg (67%); Vitamin B6 (Pyridoxine Hydrochloride) - 0.7 mg (50%); Vitamin B12 (Cyanocobalamin) - 1 µg (40%); Vitamin C (L-Ascorbic acid) - 60 mg (100%); Vitamin D3 (Cholecalciferol) - 5 µg (100%); Vitamin E (D-alpha tocopherol) - 6 mg (51%)

Recommended dosage: For children of 1-4 years - per teaspoonful (5 ml).
For children over 4 years - one tablespoon (10 ml)

KINDER *-20 multivitamins and minerals for children with a taste of berries*

Contribute to the normal function of the immune system during intense exercise and after. Maintain a normal state of bones and teeth. Increase the tone.

Recommended dosage: 1 tablet per day for children between 4-10 years; 1-2 tablets per day for children over 10 years old.

Composition in 1 tablet: Vitamin A (Beta-carotene) - 400 µg RE (50%); Vitamin B1 (Thiamine Hydrochloride) - 0.7 mg (64%); Vitamin B2 (Riboflavin) - 0.8 mg (57%); Niacin (Nicotinamide) - 9 mg NE (56%); Pantothenic acid (Calcium-D-pantothenate) - 3 mg (50%); Vitamin B6 (Pyridoxine hydrochloride) - 1.22 mg (87%); Biotin (D-biotin) - 100 µg (200%); Folic acid (Calcium L-methyl folate) - 100 µg (50%); Vitamin B12 (cyanocobalamin) - 1 µg (40%); Vitamin C (L-ascorbic acid) - 39.89 mg (50%); Vitamin D (Cholecalciferol) - 2.5 µg (50%); Vitamin E (D-alpha tocopherol) - 1.5 mg (13%); Calcium - (Calcium citrate) - 14 mg (2%); Chromium (Chromium Picolinate) - 6 µg (15%); Phosphorus (Magnesium Phosphate) - 14.06 mg (2%); Iron (Iron Fumarate) - 4.48 mg (32%); Magnesium (Magnesium Oxide) - 22.02 mg (6%); Manganese (Manganese sulphate) - 1 mg (50%); Zinc (Zinc Citrate) - 0.5 mg (5%); Selenium (Sodium selenium) - 12.02 µg (22%)

ABO - Salmon oil for children "Ribcho"

Ribcho - EPA and DHA Omega-3 fatty acids are also needed important elements in the nutrition of children, especially the smaller ones. They contribute to the normal function of the brain, heart and eyes. Vitamin D3 is important for maintaining normal function of immune system and muscles, as well as the good condition of the teeth and bones. It is essential for the normal absorption and utilization of calcium, phosphorus and potassium concentration in the blood.
Ingredients: Salmon Fish, Cholecalciferol, Gelatin, Glycerol.

Recommended dosage: 5 capsules per day without chewing, with more water. Do not exceed the recommended daily intake! Not suitable for children under 3 years due to difficulty in swallowing the capsule. Do not use as a substitute for varied meals.

Ingredients	**recommended daily dosage 5 capsules per day**	***%PDA**
Omega-3 fatty acids (Eicosapentaenoene (EPA) and Dicosahexaenoic acid (DHA)	420 mg	there is no definite value
Vitamin D3 (Cholecalciferol)	5µg	100

*% PDA = Recommended daily intake

KOOL PATCH MIX - Medical patch in febrile conditions

It is suitable for use by adults as well as by newborns. A great way to get rid of the temperature during the whole pregnancy, when no antibiotics and medication is recommended to prevent the development of the fetus.

We all know that in the first months the organs and systems of the fetus are formed and it is particularly important not to take medication.

Kool Patch is a non-drug product and it makes it completely harmless and suitable for use by pregnant women. It is also recommended to use it to alleviate the discomfort in children after immunization, in addition to reducing edema, helping to prevent fever from rising.

ABOPHARMA

ABOKOLIKEN - drops for better lactose degradation

THE TEMPORARY LACTASE INTOLERANCE is the cause for baby colic

Milk/ human breast milk

Large quantity LACTOSE

Small quantity LACTASE

Adding a lactase compensate the temporary lactase intolerance and relieve the baby colic.

Non degraded LACTOSE → secondary fermentation → gases/bloated stomach = BABY COLIC

Feeding the baby with lactose-free milk reduced gas.

Recommended dose: 5 drops (0.22 mg) added in the milk should be given with each feed. (0 - 3 months, 7 feeds x 5 drops, 4 - 6 months, 6 feeds x 5 drops). In severe cases of temporary lactase intolerance the dose of Abokoliken could be increased to maximum 10 drops given with each feed. Please consult with your doctor before increasing the Abokoliken dose. Intake duration: until fourth months of age or until the baby colic ends.

IMPORTANT: Do not keep food residue, throw it away! Do not overdose! Abokoliken should not be used as a substitute for a balanced and varied food. Do not add Abokoliken to hot or very cold milk.

- **Abokoliken contains neutral lactase (NLU) – produced by natural fermentation of Kluyveromyces Lactis. NLU acts in neutral pH = 7, pH of milk = 7.**
- **Added to milk/human breast milk immediately transform lactose and make the baby's food lactose-free**
- **Not absorbed by the baby's gastrointestinal tract.**
- **Absolutely suitable for compensating the temporary lactase intolerance, because NLU acts in milk, this is the single food that the baby intake for the first mounts of the life. Except in the milk NLU still acts in the baby's stomach where the pH is greater than the pH in the adult's stomach. The pH in the baby's stomach is almost pH=7.**
- **Activity of 1 g NLU is 50 000 GU/ml. Abokoliken degraded 70 % of lactase in the milk in 15 minutes.**
- **Abokoliken degraded 80 % of lactase in the milk for minimum two hours.**
- **Abokoliken is a unique product that contains dilute solutions of Colocynthis and Anethi graveolens. Colocynthis relieve smooth muscles of the intestines. Anethi graveolens gently acts on the stomach lining.**
- **Uses of Abokoliken do not cause constipation. Constipation is common side effect of the products that contains simethicone.**

Ingredients: enzyme lactase, Anethe oil, Colocynthis oil.

ABO - IMUNOCOL Perfect - liquid colostrum for babies and adults

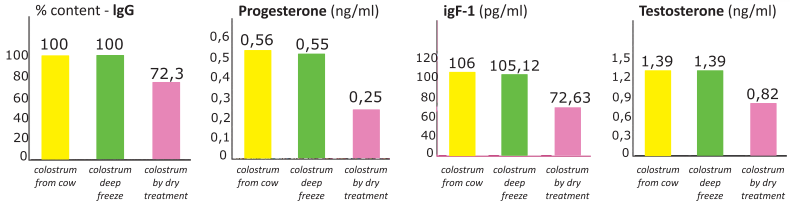

IMUNOCOL Perfect

Liquid collagen concentrate - suitable for baby, children and adults

The college carries a silent, immune mind from the t-shirt of the shirt. Through the newborn it receives passively immunity from the mother tongue organism and the predecessor of the first mild bean is narrated and "the first physician".
Immunokol Perfect delivering on the baby all the necessary ingredients that are contained in the karma as an aid to the buildup of immunity. It is a product obtained through a deep-frozen cold treatment, as compared to that of dry processing on a colander, is approximately 30% close to all indications to the true caster from the cow.
It is well known that, while the co-slaughterhouse contains a number of extremely valuable substances, which are destroyed or reduced at high temperatures. A patented over-patent method of the process of cold biotechnological processing. With his help, the ingredients can be kept at 100%. On the diagrams you can see the advantages of the deep-bevelled processing before dry processing

Not suitable for people with allergies to milk protein.

Ingredients: 100% BIO colostrum (cow colostrum - min.35% IgG), skimmed and sterile filtered. Contained lactose. Content on a 5 ml - 360 mg deposit.

Recommended reception: For children 0-3 years old per 1 teaspoon of liquor (5 ml), from 3-12 years 2 tea spoons of larvae (10 ml), over 12 years and grow up, take 1 luncheon of sunshine or evening (12.5 ml) in the pure form or mixed with cold fruit juice. Do not drink with hot drinks or alcohol.

During an intensive program: For children from 0-3 years old - the first 2 days - 3 pints per 5 ml, followed by 3 days - 2 pints per 5 ml and followed by 30 days at 5ml;For children from 3-12 years old - the first 5 days - 3 pints per 5 ml, followed by 30 days 10 ml; For children over 12 years and take the first 2 days 2 after 1 spoonful of liquids (12.5ml), the next 30 days, take 1 soup of lizzard morning or evening in a clear view or mixed with cold fruit juice;

When it is best to drink colostrum?

- In need of extraction on the immune system to the baby.
- When frequently ailing children.
- Especially useful for children of teenage age who are in puberty because it helps their normal growth.
- To recover from illness or surgery. It is to be adopted by persons with osteoporosis because it increases bone density.
- With allergies.
- In case of viral infections of the upper respiratory tracts.

What are the benefits of taking colostrum?

- Liquid form works very quickly due to immediate absorption by the body and is therefore preferred in acute viral infections.
- Liquid colostrum can be given without problem to newborn infants. It is also suitable for the elderly.
- Strengthens the immune system. Increases resistance to infections. Helps for better child growth.
- It restores the internal organs after illness. Accelerates wound healing. Helps to constrict the muscles and accumulate muscle mass. Increases bone density and strength. Regenerates the nervous system.

ABO - IMUNOCOL Perfect

COLOSTRUM for Iron Immunity

Colostrum increases the body's resistance against viral and bacterial infections.

It contains the so-called broad-spectrum antibodies (IgG, IgA, IgM, IgE) in high concentration. They are "intelligent" particles recognizing bacteria and viruses. Connect with them by becoming a prerequisite for destruction.

Not suitable for people with allergy to milk protein.

30 capsules

Benefits of Colostrum Intake:

- Contains many probiotic active molecules that play an important role in immune function and growth.
- An important source of proteins, fats, carbohydrates, vitamins and minerals.
- It has the power to help restore the healthy balance in almost all systems in the human body, and to stimulate children to develop more quickly.
- One of the richest sources of MSM (methyl sulfanil methane) and anti-inflammatory substances
- Efficient in some autoimmune diseases and chemotherapy.
- It is recommended to improve bone density and strength.
- Helps for better growth of children.
- Improves the emotional state by preventing depression.
- Improves the elasticity of the skin and the stamina of the body against heavy physical stresses.

Recommended dosage:

For adults and children over 6 years: 2 capsules per day
For children over 1 year: 1 capsule per day

Intensive program scheme:

For adults: 5 days x 5 capsules daily and then a maintenance program 30 days x 2 capsules daily.
For children over 7 years: 5 days x 3 capsules daily and then a maintenance program of 30 days x 2 capsules a day.
For children over 1 year: 5 days x 2 capsules daily and then a maintenance program 30 days x 1 capsule daily.
Mix only with cold or lukewarm liquids and foods! For easier swallowing, the capsule content may be dissolved in the food or liquid 20 minutes before a meal.

Ingridients 1 capsule: Bovine colostrum - 300 mg (min.35% IgG).

ABOPHARMA

ABO- IMUNOCOL ProBio

An iron immunity, healthy gastrointestinal microflora

Not suitable for people with milk protein allergy!
Suitable for gastrointestinal infections!

Probiotics are called "good" bacteria that are involved in normal functioning of the intestinal environment and contribute to the normal functioning of the immune system.

Probiotic bacteria colonize directly on the intestinal mucosa and produce vital enzymes, vitamins, amino acids and other cellular bioproducts.

15 capsules

Immunocol ProBio contains specially developed microcapsule cultures of Lactobacillus acidophilus and Bifidobacterium Longum, ensuring billions of living organisms without the need for special storage.

IMUNOCOL Probio:

- Stimulates the function of the immune system and creates resistance against the internal pathogens.
- Helps absorb nutrients and relieves liver function.
- Contributes to reducing the toxic activity of the other bacterial strains.
- Helps prevent intestinal, urinary and other infections.
- Helps to counteract Helicobacter pylory.
- They help assimilate bad cholesterol.

Recommended dosage:
For adults and children over 6 years: 2 capsules per day
For children over 1 year: 1 capsule per day

IMPORTANT: To be taken with sufficient water. For easier swallowing of children up to 3 years, pour the contents of the capsule into a drink or food. Mix only with cold or lukewarm liquids and foods!
It is recommended to be taken between meals. 1 hour before meals, not fasting.

Composition 1 capsule contains: Bovine colostrum powder (35% IgG) - 370 mg, Lactobacillus acidophilus (2 billion. Live bacteria) - 20 mg, Bifodobakterium Longum (1 billion. Live bacteria) - 10 mg

ABOPHARMA

FLORA - formula combining probiotics and prebiotics for double force and body's defenses

Flora products have been developed specifically to support the proper functioning of the digestive system and relieve stomach ailments in children and adults.

Probiotics are bacteria that have a beneficial impact on overall organisms by directly colonizing the intestinal mucosa and begin to produce there vital enzymes, vitamins, amino acids and other cell bioproducts.

Prebiotics are the food of good bacteria. These are fibers that help the development of the beneficial effects of probiotics and their survival in the intestinal tract us.

Fructooligosaccharides (FOS) are low-calorie, carbohydrate nehranosmilaemi which act beneficial to the immune system, bone health and balance of the important bacteria in the gastrointestinal system. The presence of FOS in products contributes to proper development and activity of lactic acid bacteria.

Flora 7 Bimbi - 6 single-use vials have a unique combination of probiotics, pre-Antibiotics and vitamin B complex. They maintain the balance of intestinal flora and inhibit the growth of bacteria, ensuring proper and effective digest-Lane. They are suitable for use in the viral and gastrointestinal infections, and during and after treatment with antibiotics. May be adopted by infants and children up to 12 years old. They support the normal functioning of digestive enzymes in the child's body.

Flora 7 Bimbi - 10 sachets help to suppress the growth of pathogenic bacteria, which are th of the main causes of gastrointestinal disorders. Especially suitable during, and after taking antibiotics. Help for proper and effective digestion, a natural coping with swelling of the abdomen of the child, gas and colic. Moreover **Flora7 -10 sachets** are very effective for constipation, upset or under stress due to change in scenery.

Flora 10 also contains Inulin, Vitamin B1 and Vitamin B3 in order to guarantee their supplementation in case of dysbiosis when their production by the microflora is compromised. Furthermore the presence of Vitamin C contributes to the immune system recovery.

Active ferments

7 Billions of **active ferments**
with FOS and vitamins of group B

6 single-use vials

net weight 110g e 6 single-use vials 10ml each (11g)

Flora bimbi is a food supplement of active ferments based on Bifidobacterium infantis, Lactobacillus acidophilus, Streptococcus thermophilus with FOS and Vitamins of group B useful to favor the equilibrium of the intestinal flora.

Ingredients: *Vial:* Distilled Water, Fructose, FOS (Fructooligosaccharides), acidulant malic acid, natural strawberry flavor, preservative: potassium sorbate. *Measuring cup:* Mix of lactic acid bacteria (Bifidobacterium infantis ATCC 15697D, Lactobacillus acidophilus La-14, Streptococcus thermophilus ATCC 19258), starch corn, anti-caking agent: silicon dioxide, Vitamin B6, Vitamin B2, Vitamin B1, Vitamin B12.

Dosage: take 1 bottle a day, preferably at morning before breakfast.

Way of use: Press the top of the cap to release the powder into the liquid and stir well. Unscrew the cap, breaking the seal warranty and take the product.

Warnings: Keep out of reach and sight of children under 3 years. Do not exceed the recommended daily dose. Food supplements are not intended as a substitute for a varied diet and a healthy lifestyle

flora Bimbi

7 Billions of **active ferments**
stable to gastrich pH and to bile

10 single-use sachets

Net weight 35 g e

This product is particulary useful for rebalancing the intestinal bacterial flora in children. The presence of FOS contributes to correct development and activity of the lactic ferments, thus favouring the well-being of the organism.

Ingredients: Fructose, Corn maltodextrins, Fructo-oligosacharides (FOS), *Lactobacillus rhamnosus 100mld UFC/g (1,5mld/dose), *Bifidobacterium infantis 100mld UFC/g (1,5mld/dose), *Bifidobacterium breve 100mld UFC/g (1,5mld/dose), *Lactobacillus acidophilus 150mld UFC/g (1,5mld/dose), *Streptococcus thermophilus 200mld UFC/g (1mld/dose), Flavour, Vitamin B12 (Cobalamin) 0,1%, Vitamin B6 (Pyridoxine), Vitamin B2 (Riboflavin), Vitamin B1 (Thiamin).
* on a maltodextrin support.

Dosage: The recommended daily dose 1 sachet to be dissolved in a glass of water away from meals.

Warnings: Keep away from the reach of children under 3 years of age. Keep in a dry cool place. Do not exceed the recommended daily intake. Dietary supplements are not to be intended as substitutes for a varied diet.

WHAT IS THE COLLOIDAL SILVER?

Colloidal silver consists of silver nanoparticles suspended in water. The term "colloidal" means that this element originates an opalescent mixture called "colloid" whose particles have a size between 10^{-9} and 10^{-6} m, very small but still detectable and not able to solubilize completely to generate a perfectly clear solution. It is thanks to this characteristic that colloidal silver performs its therapeutic effect even if present in traces: the very small size enables it **to interact with bacteria, mycetes and even viruses completely inhibiting their proliferation.**

THERAPEUTIC USE OF COLLOIDAL SILVER

The powerful antibacterial and antiviral activity of the colloidal silver has different fields of use. Its inclusion in medical devices for the wellbeing of the respiratory tract is safe and effective even for children as shown by studies carried out on children aged 0 to 12 years with viral rhinitis from which they fully recovered in 90% of cases. (1) The colloidal silver is tasteless and odourless; therefore it doesn't alter the taste of the product enabling to obtain a pleasant formulation, suitable for everybody.

PROPOLIS: the many beneficial effects of propolis have been known and considered since centuries so much so that its use dates back to Ancient Greece. This precious substance is the result of the interaction between animal and plant kingdoms because, over the centuries, plants in the effort to protect their most delicate parts from external aggressions, have covered them with resins rich in polyphenols These resins were then collected and processed by bees by adding waxes, pollens and enzymes. Therefore propolis, thanks to the incredible mix of ingredients, combines multiple activities including **antibacterial, antiviral, antifungal, anti-inflammatory and immune-regulatory activities.** Therefore it is successfully added to preparations against seasonal diseases such as sore throat and cold, acquiring the title of real **natural antibiotic.**

FOCUS ON COLLOIDAL SILVER

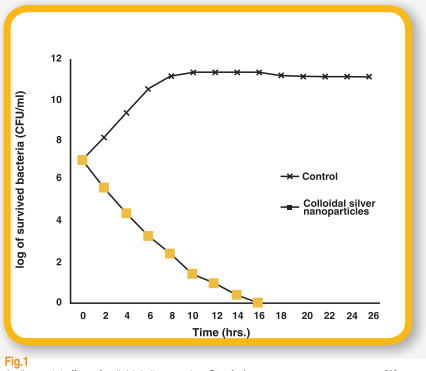

Fig.1
Antibacterial effect of colloidal silver against **Staphylococcus aureus** [2]

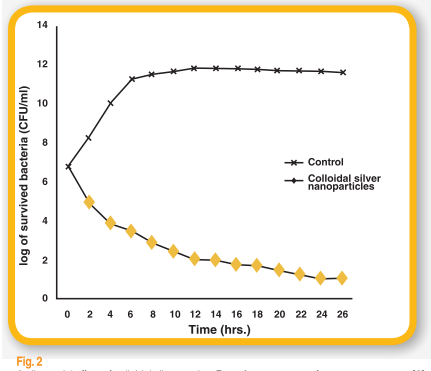

Fig. 2
Antibacterial effect of colloidal silver against **Pseudomonas aeruginosa** [2]

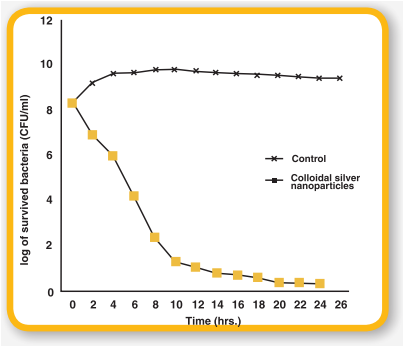

Fig. 3
Antibacterial effect of colloidal silver against **Escherichia coli**. [2]

The graphs show how colloidal silver in traces is already active against some of the most common bacteria, potentially pathogenic to man.

THE THREE FORMULATIONS ARE COMPLETED WITH:

Thymus vulgaris L.: effective natural fluidizer of the tracheobronchial secretions, especially in case of productive cough.
Grindelia robusta Nutt: expectorant, anti-inflammatory and antispasmodic of the bronchial smooth muscle.
Althaea officinalis L.: Very rich in mucilages that form a coating on the oropharyngeal mucosa, hydrating and protecting it from external irritating agents such as dust, smog and dry air.
Sisymbrium officinale Scop.: also called “singer’s plant”, it is essential in all cases of aphonia and dysphonia resulting from laryngitis, pharyngitis, tracheitis and throat inflammation.
Seawater: decongests the nose without the side effects produced by synthetic decongestants as it draws out water through osmosis, reducing mucosal swelling.
Eucalyptus, Lemon and Niaouli essential oils: for a pleasant refreshing and balsamic effect.

SILVERTUSS SYRUP

Indicated for cough, cold, bacterial and viral diseases of the upper airway.

Ingredients: Propolis, Althaea officinalis, Thymus vulgaris, Grindelia robusta, colloidal silver.

Directions: Children aged 2 to 6 years: 2.5 ml 3 times daily.
Children over 6 years of age: 5 ml 3 times daily
Adults: 5 ml 3-4 times daily
Use the measuring cap provided

ABOPHARMA

ABO- ULITUSS

for a natural cough control

Ulituss is a food supplement based on snail extract and Gumweed useful to favour the function of the upper respiratory tract, the oropharyngeal mucosa and the tone of voice for its emollient and soothing action; the presence of Vitamin C also contributes to the normal function of the immune system.

HS Complex®

Ingredients:
fructose, water, HS Complex (standardized snail extract enriched with Vitamin C), flavour (raspberry flavour), Gumweed (Grindelia robusta Nutt., tops) dry extract, acidifier: citric acid, preservative: potassium sorbate.

Directions:
The recommended dose is 30 g/daily (about 3 tablespoons), before meals. Halve the dose for children.

AVERAGE CONTENT	
Ingredients	**Values for MRDD 3 tablespoons (equal to 30g)**
HS Complex® of which Vitamin C	9 g 60 mg (75% NRV)
Gumweed (Grindelia Robusta Nutt., top) d.e.	24 mg

NRV: Daily nutrient reference value (adults) under reg. 1169/2011

Gumweed has a complex mechanism of action.

Saponins: Excito-secretory and fluidifying activity on bronchial secretion

Fluidifying activity on mucus thanks to their ability to lower the surface tension

Resins: Protective activity on the mucosa thanks to their adhesive properties

Flavonoids and other phenolic compounds: Anti-inflammatory activity

IMUNOHEALTH FORTE - Healthy immune system

INNOVATIVE FORMULA with Lactoferrin, Inositol, Acerola, Black Bleach, Zinc and Beta1.3 / 1.6-D Glucan

Ingrediets	In 5ml	In 10ml	*PDP (for 5 ml)	*PDP (for 10ml)
Lactoferrin	100 mg	200 mg	---	---
Black Elderberry Fruit Extract	30 mg	60 mg	---	---
Inositol	20 mg	40 mg	---	---
Vitamin C (natural extract of Acerola)	19 mg	38 mg	24%	48%
Beta glucans	10 mg	20 mg	---	---
Zinc (Zinc chloride)	2 mg	4 mg	21%	42%

Recommended dosage:
- for children up to 12 years old - 5 ml
- for children over 12 years and adults - 10 ml

When needed, the intake for adults may be increased to 15 ml per day.
Shake slightly before use. Do not exceed the recommended daily intake.
It is not a substitute for a variety of daily food.

Lactoferrin is a glycoprotein found in human breast milk and milk of cows. It helps to maintain a normal immune system, helps to increase phagocytic activity of leukocytes. It is a protein from the transferrin family, which helps to transport the iron to the cells. It helps to maintain the good state of the beneficial intestinal microflora.

Acerola is a tropical fruit that grows on low trees (2-3 meters). It is also called Barbados or Western Indian grapes. Acerola is home to South Mexico, Central and South America. Acerola is a fruit with a high concentration of natural vitamin C, making it easily absorbed by the human body. It is also rich in proteins, lipids, carbohydrates, calcium, phosphorus, iron, riboflavin, thiamin and fiber. Vitamin C contributes to the normal function of the immune system, the protection of cells from oxidative stress, the formation of collagen and the normal state of cartilage. Helps the functioning of the nervous system and blood vessels maintain normal mental function, reduce the feeling of fatigue and fatigue, regenerate vitamin E in its reduced form and increase iron uptake.

Inositol contributes to the maintenance of the normal concentration of cholesterol and triglycerides in the body. Helps to transfer nutrients through the cell membrane and helps break down fat.

BLACK Elderberry (Sambuscus nigra)

Black elderberry (Sambuscus nigra) is a tree species with black elderberry fruit. Its fruits have been used for hundreds of years in Europe, Africa and Asia because of the many biologically active substances contained in them - phytochemicals, polyphenols, minerals, fiber, vitamins - large amounts of vitamin C, vitamins from group C. The berries are rich and of anti-cyanide compounds. These compounds contribute to the neutralization of free radicals. They contain many pectin and cellulose that act diuretically.

BETA 1,3 / 1,6-D-glucans are a type of water-soluble fiber. They are fibers bound in the bile acids. Beta glucan contributes to maintaining a normal blood cholesterol concentration.

Zinc is a mineral that plays an important role in metabolism. It contributes to the normal state of hair, skin, nails, eyesight, immune system, to protect cells from oxidative stress and for normal DNA synthesis.

ABOCELUX - VITAMIN C DEPOT (400 mg) + Zn (10 mg)

Витамин С Forte, 1000 mg

Effervescent tablets with taste of orange - 20 pcs / pack.

At the first symptoms of a cold or influenza

ABOCELUX provides a gradual release of the active ingredients throughout the day. Thus, Vitamin C is available to the body in small portions for longer periods of time and for more complete absorption. Ingredients are absorbed faster than the body, its concentration in the plasma fluid is higher, and its removal from the body is slower.

Vitamin C is one of the most powerful and most important antioxidants.

Essential property - Contributes to the destruction of free radicals in the body (toxins, heavy metals, toxic compounds that emit poisonous oxides) by associating with free radicals and stopping their harmful effects. L-Ascorbic acid is not produced alone in the body but must be supplied through the diet or through a nutritional supplement.
The recommended daily doses are within 200 - 500 mg for healthy people.
Vitamin C needs increase many times when the body is exposed to infections, traumas, severe physical and mental stresses.

Vitamin C + Zn (zinc) contributes to:

- the normal function of the immune system;
- protecting cells from oxidative stress;
- reducing the sense of fatigue and fatigue;
- нnormal function of bones, blood vessels and cartilage.

Zinc contributes to maintaining the normal state of vision, hair, nails and skin. Normal synthesis of DNA, normal cognitive function. Participates in the process of cell division.

Ingredients per 1/2 effervescent tablet:
Vitamin C
(L-Ascorbic acid) - 500 mg

Composition of 1 capsule:
Vitamin C (L-ascorbic acid) - 400 mg;
Zinc (Zinc Sulphate) - 10 mg

Recommended intake: Half effervescent tablet per day dissolved in glass of water.

Recommended Intake:
1 capsule daily without chewing with more water.

ABOPHARMA

ABO - A bis Z – 27 vitamins, minerals and microelements

A unique formula of vitamins, minerals and microelements

Often, in daily stress we miss out on meals or eat a homemade or unhealthy meal. Therefore, we need additional intake of vitamins that will increase our tone and strengthen our immune system. Vitamin A bis Z supplies our body with 27 vitamins, minerals and microelements day by day.

Recommended intake:
1 tablet per day over 2 months

30 tablets 60 tablets

Composition of 1 tablet: *Vitamin A (Retinol) -800 µg RE (100%); Vitamin D (Cholecalciferol) - 5 µg (100%) Vitamin E (D-alpha-tocopherol) - 10 mg α-TE(83%) Vitamin B1 (Tiamin mononitrate) - 1.4 mg (127%); Vitamin B2 (Riboflavin) - 1.6 mg (114%); Vitamin B6 (Pyridoxine) - 2 mg (143%), Vitamin B12 (Cyanocobalamin) - 1 µg (40%), Pantothenate (Calcium D-pantothenate) (Calcium L-methyl folate) - 200 µg (100%); Biotin (D-biotin) - 150 µg (300%); Vitamin K1 (Phytomedion) -30 µg (40%); Niacin (Nicotinamide) - 18 mg NE (113%); Chloride (Potassium Chloride) - 72 mg (9%); Calcium (Calcium Glycerophosphate) - 138 mg (17%); Magnesium (Magnesium Oxide) - 100 mg (27%); Iron (Iron Fumarate) - 5 mg (36%); Zinc (Zinc citrate) - 5 mg (50%); Iodine (potassium iodide) - 100 µg (67%); Manganese (Manganese gluconate) - 2 mg (100%); Potassium (Potassium Chloride) -80 mg (4%); Phosphorus (Calcium Glycerophosphate) - 108 mg (15%); Copper (Copper Sulfate) - 1 mg (100%); Molybdenum (Ammonium molybdate) -80 µg (160%); Chromium (chromium picolinate) - 60 µg (150%); Selenium (Sodium selenium) - 30 µg (55%); Silica (Silica Dioxide) - 0.02 mg (/ *)*
** PDP - recommended daily intake*

A bis Z - 28 vitamins, minerals and microelements

A combination of 28 vitamins, minerals and microelements.
Helps boost the tone and strengthen the immune system.

Recommended intake: 1 tablet per day, dissolved in a glass of water.

Composition of 1 tablet: *Vitamin A (Retinyl acetate) - 600 µg RE (75%); ß-Carotin (Beta-carotene) - 1.20 mg (25%); Vitamin E (DL-alpha-tocopheryl acetate) - 10 mg α-TE (100%); Vitamin C (L-ascorbic acid) - 60 mg (100%); Vitamin K1 (Phytomedion) - 30 µg (/ *); Vitamin B1 (Thiamin mononitrate) - 1.4 mg (100%); Vitamin B2 (Riboflavin) - 1.6 mg (100%); Vitamin B6 (Pyridox-blue) - 2 mg (100%); Vitamin B12 (Cyanocobalamin) -1 µg (100%) Vitamin D3 (Cholecalciferol) - 5 µg (100%); Biotin (D-biotin) - 0.15 mg (100%); (Calcium L-methyl folate) - 200 µg (100%), Niacin (Nicotinamide) -18 mg NE (100%), Pantothenate (Calcium D-pantothenate) - 6 mg (100%); Calcium (Calcium glycerophosphate) - 160 mg (20%); Magnesium (Magnesium carbonate) - 100 mg (33.3%); Iodine (potassium iodide) - 100 µg (66.7%); Potassium (Potassium Chloride) - 40 mg (/ *); Chlorine (CaCl2) - 36.3 mg (/ *); Copper (copper gluconate) - 1 mg (/ *); Manganese (Manganese gluconate) -1 mg (/ *); Molybdenum (Ammonium molybdate) - 25 µg (/ *); Selenium (sodium selenite) - 25 µg (/ *); Silicon (Silicon dioxide) - 2 µg (/ *); Zinc (Zinc gluconate) - 5 mg (33.3%); Chromium (Chromium (III) chloride) - 2.5 µg (/ *); Iron (Iron Fumarate) - 5 mg (35.7%); Phosphorus (Calcium glycerophosphate) -128 mg (16%)*

ABOPHARMA

ABO - Salmon oil capsules 500 mg

Omega 3 fatty acids + Vitamin E

High cholesterol

Composition of 2 capsules: Fish oil syomga (18% eicosapentaenoic acid (EPA) and 12% docosahexaenoic acid (DHA) and omega-3 fatty acids) - 1,000 mg; Vitamin E (D-alpha tocopherol) -20.10 mg-TE (168% PDP)

Recommended dosage: 2-5 capsules per day without chewing, with more water. To maintain normal brain function and normal vision, daily intake should be 5 capsules.

What are the early signs of Omega-3 deficiency?

- fatigue
- weak memory
- lack of concentration
- mood swings or depression immune
- deficiency
- dry skin, eczema or hair loss
- cardiac or reproductive problems
- low blood circulation

Why do we need EPA?

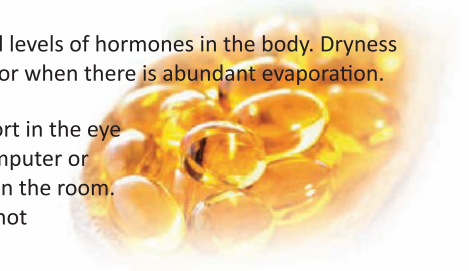

- **EPA** in fish oil reduces the production of arachidonic acid, which reduces the production of "bad" icicanoids.
- It helps to stabilize the levels of sedimentation, excluding the need to produce excess cortisol leading to damage to the memory center in the brain's hippocampus.

ESSENTIAL FATTY ACIDS ARE A TRUE EYE BALSAM

Polyunsaturated fatty acids Omega-3 are needed on the sight cells as they increase the resistance of the eye. Taking **Omega-3** helps maintain normal vision.

Omega-3 stimulate muscle gland responsible for the tearing of the eye. Thus greatly relieves irritation and discomfort created by a very common problem **"Dry eye"**. More affected by it are women, mainly after menopause.
Then lacrimal gland function less because of reduced levels of hormones in the body. Dryness occurs when the amount of tears is below the norm or when there is abundant evaporation.

Evaporation of tears and the appearance of discomfort in the eye may also be due to excessive staying in front of a computer or TV monitor while driving or using an air conditioner in the room. Downgrades tears evaporate easily, because it does not contain enough lipids.

ABOPHARMA

ABO - Salmon oil capsules 1000 mg

Omega 3 fatty acids + Vitamin E, 60 capsules

High cholesterol

Ingredients: Salmon fish oil (18% eicosapentaenoic acid (EPA) and 12% docosahexaenoic acid (DHA) omega 3 fatty acids); Vitamin E (D-alpha tocopherol).

Recommended dosage: 1-3 capsules per day without chewing, with more water.

Do not exceed the recommended daily intake. This nutritional supplement is not a substitute for varied daily meals.

For maintenance of normal brain function and normal vision the daily intake should be 3 capsules.

Purpose: Balanced levels of cholesterol and triglycerides are essential for a healthy heart and cardiovascular system. Important **Omega-3 fatty acids** are eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA). Only a few types of foods contain these vital ingredients. Suitable cold-water fish such as salmon, herring, mackerel. Our body can not produce Omega 3 fatty acids by itself, so they should be purchased as part of a varied daily diet.
OMEGA 3 fatty acids contained in salmon fish oil contribute to normal cardiac function, normal brain function and normal vision.
Vitamin E contributes to the protection of cells from oxidative stress.

Ingredients	1 capsule	%PDP	3 capsules
Salmon fish oil	1000 mg	no definite value	3000 mg
Vitamin E (D-alpha tocopherol)	10 mg	84	30 mg

High triglyceride concentration is a risk factor for the development of cardiovascular disease. The risk is significantly increased at high blood triglycerides in combination with high total and bad (LDL cholesterol) and low good (HDL), especially in the presence of diabetes. **Omega-3 fatty acids** are required to reduce elevated triglyceride levels and reduce morning stiffness and painful joints in patients with rheumatoid arthritis. About 4 grams per day **Omega-3 fatty acids** reduce serum triglyceride concentrations by 25 to 30%. A controlled study of two groups of patients with elevated triglyceride levels indicates that **Omega-3** users experience a 30% decrease in serum triglyceride concentrations and a 30-40% reduction in bad cholesterol levels.

WHY DO WE NEED DHA?

- **DHA** is mainly contained in the brain, retina and sperm fluid. More than 60% of the brain's weight is made up of fat, and most of the long-chain Omega-3 are concentrated in the brain
- **Dicosahexaenoic acid** is critical for some cell membranes, such as synapses (for information transfer), retina (for visual information), and mitochondria (to produce ATP - a substance that stores and transports chemical energy to cells)
- Key brain cells can not function fully without adequate DHA levels in their membranes

ABOPHARMA

ABO - MAGNESIUM

Magnesium (150 mg) - 20 effervescent tablets with orange flavor.

For humans, magnesium is needed for energy production in cells. It speeds up metabolism by playing an important role in bone building and in a number of metabolic processes. Magnesium aids in the distribution of nerve cell signals, protein production, and heart rate control. The main amount of magnesium in the body is found in the skeleton and muscles. This mineral is involved in nervous and muscular excitability, and its effect is opposite to calcium. Low magnesium intake occurs in conditions associated with poor nutrition, increased needs (breastfeeding), and some bowel diseases that accompany poor absorption of the mineral. **Without sugar.**

Recommended Intake:
1 tablet 1-2 times a day dissolved in 200 ml of cold water.

Composition of 1 tablet: Magnesium (Magnesium carbonate) - 150 mg (50%)

ABO - FLAX OIL

Flaxseed oil is a great addition to your diet, which provides the body with essential fatty acids Omega-3,6,9, which help maintain fat metabolism and functional levels of triglycerides and cholesterol in the blood. Supports the functioning of the brain, the cardiovascular system, the digestive system and the nervous system.
Helps the liver. It has a beneficial effect on the bone-joint apparatus. It naturally supports the immune system of the body. Helps anti-inflammatory action, especially in inflammation and joint pain and arthritis, inflammation of the stomach, intestine, bronchitis, urinary tract.

Recommended intake: 2 capsules per day. Achieving an optimal result requires that the duration of the dosing is not less than 3 months.

60 capsules

Composition of 1 capsule: *100% cold-pressed, unrefined and unfiltered linseed oil - (ALK) - 1000mg of Vitamin E / mixed tocopherol - 10 mg (167%)*

ABO PHARMA

ABOPHOLIC META - methylated folic acid 400 µg

+ Vitamins B1, B2, B3, B5, B6, B7 and B 12

New improved formula with L-methylfolate for better absorption.
Suitable for intake by people with anemia or dermatological problems!

400 µg
30 tablets

ABOPHOLIC META is absorbed faster and almost immediately reaches the required levels. Conversion of folic acid to L-methylfolate is a complex and multilevel process. In 12% of the population can not be established due to genetic enzyme defect. Therefore, it is recommended to be taken by both women and men.
ABOPHOLIC META helps reduce the risk of developing Spina Bifida from the fetus.

Group B vitamins are extremely important for the construction of neurotransmitters, to protect the genes from damage, for cellular oxidative reduction processes.
The three main components of folic acid are PABA, glutamic acid and pteridine. Helps the cells to multiply. It is necessary for the formation of the placenta and for the construction of the embryonic bone marrow.
Important: Do not take ABOPHOLIC META if: You have ever had an allergic reaction to L-methylfolate or any of the other ingredients of the tablet. The most common symptoms of an allergic reaction are rash, itching, swelling of the lips, shortness of breath.

Recommended dosage:

- Any woman of childbearing age are needed 0.2 mg (200 micrograms), - a half tablet daily intake of folic acid.
- For pregnant women the dose is double: 0.4 mg (400 micrograms) - 1 tablet per day. Administration of folic acid reduce the risk of injury to the baby to 70%.
- Recommended 1 tablet per day for people with type 2 diabetes, because taking metformin, which leads to reduced levels of vitamin B12 and folic acid.
- For dermatological problems 1 tablet a day after consultation with a dermatologist. At the discretion of the specialist, the intake may be increased.
- To enhance the levels of spermatogenesis in men recommended daily intake of 0.2 mg - half tablet of folic acid.

Ingredients of 1 tablet: methylated folic acid / calcium L- methylfolate / - 400 µg, Vitamin B1 / thiamine / - 1.4mg; Vitamin B2 (riboflavin) - 1.6mg; Niacin / nicotinamide / - 18 mg NE; pantothenic acid / Potassium D - pantothenate / - 6 mg; Vitamin B6 / pyridoxine / -2 mg; Biotin (D-biotin) - 150 µg; Vitamin B12 (cyanocobalamin) - 1 µg.

ABO-VITAMAM - multivitamins and minerals for pregnant women

24 vitamins, minerals and microelements

Suitable for intake and during breast feeding!

Recommended dosage:
1 tablet per day without chewing with more water. The product is not a substitute for varied meals!

400 µg
folic acid
30 tablets

VITAMAM e is a specially formulated formula for pregnant women of 24 vitamins, minerals and trace elements. They contribute to the proper development of the fetus throughout the pregnancy and post-natal period.

VITAMAM is also recommended in the case of a planned pregnancy

- Carefully selected ingredients help maintain a normal state of the immune system of the future mother and help to properly build and function the cells and tissues of the fetus

- Help reduce the feeling of tiredness and fatigue and to protect cells from oxidative stress

- It is known that in the 9 months, iron demand has increased considerably, desirable to avoid up to 12 weeks of gestation because they can cause nausea and vomiting. However, the micro element should be taken in the second half of the pregnancy. It is difficult to digest, so the amount should not be more than 30 mg per day. If the pregnancy is two-fetal or the woman is large, the dose should be doubled.

Ingredients in 1 tablet: Vitamin B1 (Thiamin mononitrate) - 3 mg (273%), Vitamin B2 (Riboflavin) - 2 mg (143%), Vitamin B3 (Nicotinamide) Calcium D-pantothenate - 6 mg (100%), Vitamin B6 (Pyridoxine Hydrochloride) - 10 mg (715%), Vitamin B7 (D-Biotin)) - 400 µg (200%), Vitamin B12 (Cyanocobalamin) - 6 µg (240%), Vitamin C (L-ascorbic acid) Vitamin P (Bioflavonoids) - 25 mg, Potassium (Potassium iodide) - 0.04 mg (67%), Vitamin E (DL-alpha-tocopherol) (0%), Calcium (Calcium Car (Magnesium Oxide) - 150 mg (40%), Manganese (Magnesium Oxide) - 150 mg (40%), Iron (Iron Fumarate) (Manganese Gluconate) - 1mg (50%), Zinc (Zinc Citrate) -15 mg (150%), Selenium (Sodium Selenium) - 25g (45% (Ammonium heptamolybdate) - 50 µg (100%), Chromium (chromium picolinate) - 25 µg (63%).

*% PDP = Recommended daily dosage

ABOPHARMA

UROCIST - adjuvant in the prevention and treatment of cystitis

MEDICAL DEVICE

GLUTEN FREE

D-mannose – 150 mg.; Bearberry – extract titrated at 20 % in arbutin – 125 mg.; Cranberry – extract titrated at 40 % in proanthocyanidins – 40 mg; Beta-glucans – 25 mg

with Cisti-complex®

15 tablets

One tablet contains 40 mg proanthocyanidins
No contraindications in pregnancy
May be used in children over 6 years

For chronic infections, after specific treatment or during the antibiotic treatment: one tablet per day with a glass of water for at least one month. Evening intake recommended. In cases of strong pain or acute cystitis is recommended to take two tablets per day until the symptoms fading, usually 3-4 days.

UROCIST provides a natural approach that can avoid the complication of resistance developed by Escherichia coli to the traditional treatment.

- Proanthocyanidins (PAC) from Cranberry and D-mannose prevent bacterial colonization in urinary tract. PAC and D-mannose binding to the bacterial fimbriae (fig.1).
- Bearberry increase urine output and helps to eliminate the bacteria.
- Beta-glucans – have immunostimulating properties. When the quantity of macrophages in the immune system is low it is possible to have bacterial infection in throat, oral cavity, nose, skin, lungs.

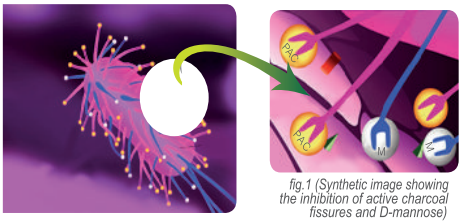

fig.1 (Synthetic image showing the inhibition of active charcoal fissures and D-mannose)

Beta-glucans increase host immune defense by activating complement system, enhancing macrophages and natural killer cell function. In viral infections Beta-glucans increase productions and activity of T-cells which along with macrophages shows antiviral activity.

ABOPHARMA

ABO-ISOFLAVON

natural substitute for hormone therapy

Soy beans - one of the richest sources of isoflavones

Does not contain ingredients from GMOs!

Composition of 1 capsule:	*PDP
Soy isoflavone	75 mg (50% PDP)
Soy lecithin	5 mg

* PDP - recommended daily dosage

Recommended dosage:
1 capsule daily
To obtain the desired effect must be taken regularly for 8 weeks. No side effects have been identified.
Not recommended for pregnant and nursing mothers.

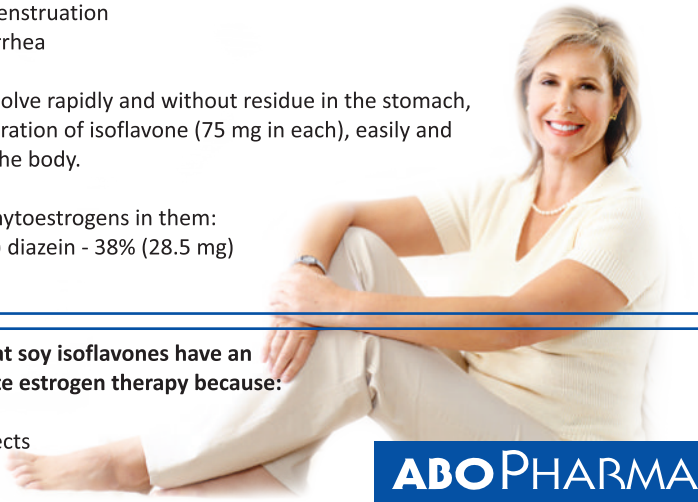

Isoflavones - biologically active compounds from the group of plant estrogens (phytoestrogens). Action - like natural female sex hormones - estrogen.

Soy isoflavone is an alternative substitute for hormone therapy with estrogen for women before and during menopause as it helps balance the female sex hormone.

- Contributes to reducing climacteric symptoms such as headaches, hot flushes, insomnia, fatigue, nervousness, mood swings
- Contributes to the maintenance of normal bone
- Suitable for painful menstruation
- Suitable for dysmenorrhea

Soft gelatin capsules dissolve rapidly and without residue in the stomach, helping the high concentration of isoflavone (75 mg in each), easily and maximally absorbed by the body.

The ratio of the major phytoestrogens in them:
genitalin - 50% (37.5 mg) diazein - 38% (28.5 mg)
glycitin 12% (9 mg)

Experts are adamant that soy isoflavones have an advantage over surrogate estrogen therapy because:
1. It is more effective
2. No unwanted side effects

ABO PHARMA

ABO MAGNESIUM (250 mg) + vitamin B complex

30 tablets

For muscles and nerves

Ingredients of 1 tablet .:
Magnesium (Magnesium carbonate) - 250 mg (67% RDA),
vitamin B1 (Thiamine) - 0.7 mg (64% RDA),
Vitamin B2 (Riboflavin) - 0.8 mg (57% RDA),
Vitamin B6 (pyridoxine) -1 mg (71% RDA),
Vitamin B12 (Cyanocobalamin) - 0.5 µg (20% RDA)

Recommended dosage: 1 tablet a day.
1 tablet was equal to 10,3 mmols Mg^{++}

Magnesium is an important mineral, which is essential for many metabolic processes and which can not be produced by the body itself.
Strong mental and physical burden of occupation, stress or sports often lead to an increased need for magnesium, which can not always be met through diet.

In addition, it is the nutrient with B vitamins plays an important role.

To support the body optimally in times of increased stress combine in **ABO MAGNESIUM with vitamin B complex** tablets essential nutrients for nerve function, to reduce fatigue and energy production.

Magnesium is indispensable as an "anti-stress mineral" for energy and for muscle relaxation.

The power of the heart muscle is supported by magnesium.

The B vitamins B1, B2, B6 and B12 supplement the properties of magnesium, as they are important for energy production in the body and for the nervous system.

ABO - Magnesium gel

compensate the deficit of magnesium in the body

Magnesium gel

Magnesium gel is a form of transdermal magnesium, a new method of magnesium supplementation designed to deliver magnesium topically for rapid absorption into the cells.

Magnesium gel purified and further concentrated form of magnesium chloride. It is suitable for topical and transdermal magnesium therapy, and to work with ultrasound and physiotherapy. Unlike magnesium oil, gel absorbs quickly and it is more practical to use.

HOW TO USE: Apply on the skin and blend. For maximum effect, we recommend you stand on the skin 15 to 17 minutes.

Magnesium gel, a form of transdermal magnesium, is unique in that it is:

- Easily assimilated by the body.

- Delivered through the skin and therefore directly available to muscular systems that require magnesium to function.

- Tolerated well, avoiding problems of irritation and loose stools by bypassing the digestive tract

Experts such as Dr. Carolyn Dean, M.D. and naturopathic doctor, hail topical magnesium as an “exciting addition to the magnesium family” due to its universal ease of use and the high bioavailability of its dominant mineral magnesium chloride. She writes: I realized that many people can’t take oral magnesium because of the laxative effect. Therefore I began researching and then advising people to put supersaturated magnesium chloride on their skin to bypass the intestines, stimulate DHEA production that occurs in the skin, use in baths and foot baths for muscle aches, joint pain, and foot pain and neuropathy.”

WHAT EXPERTS SAY:

“Magnesium gel penetrates well, it does not form a crust on the surface of the skin. It is used in pain syndrome - in damage to the knee joint, periarthritis or damage to the shoulder joint, and in discopathy. Very often it is used by ultrafonoforeza - ultrasound or infrared light, creating a good contact and can be successfully applied in therapy. The product is very important when it comes to heart disease or muscle cramps and also in patients with presence of diabetes. Additional magnesium intake need and muscular fatigue and overcome-related stress, heavy physical labor or active sports. Definitely gives good period Result th and no side effects. “
Prof.Troycho Troev - Head of the Department of physiotherapy and rehabilitation at the Military Medical Academy - Sofia

"Our experience in line with the studies made by the Karolinska University suggests that magnesium is effective especially when administered transdermally. In recent months we started more efficiently, but to recognize the real benefits of these forms of administration and I can say that they are definitely Aubenas-dezhdavashti. The use of magnesium gel or oil is taken quickly and act quickly on pain of a different nature and cramps. ABOPharma`s gel is absorbed extremely well since its very texture allows to penetrate the skin without leaving a surplus and without stain. "
Prof. Dimitar Kamburov, University Hospital" St. Anna "- Varna

“Magnesium oil and gel can replace in certain cases, treatment with tablets, especially in physiotherapy, where these products give excellent results. Magnesium products can successfully be accepted together, the effect of taking the Pill actually strengthened in some cases, when combined with magnesium intake through the skin. “
Assoc. Prof. Dr. Bozhidar Finkov, University Hospital" St. Anna "- Sofia city

ABO PHARMA

ABO - Magnesium Oil

Pure, natural cosmetic product

Magnesium Oil

Magnesium oil is a term that was coined early in the development of transdermal magnesium therapy.
Though applied in a manner similar to beneficial natural oils, magnesium oil in its composition is actually a highly concentrated solution of magnesium chloride in water.

Magnesium oil is a transdermal magnesium supplement, designed to deliver magnesium through the skin, bypassing the gastrointestinal tract for convenient, rapid absorption into the cells.

HOW TO USE:
Apply on the skin and blend. For maximum effect, we recommend you to stand on the skin 15 to 17 minutes. Repeat to cover arms, legs, and any areas needing special attention. In more sensitive skin before coating it is diluted with equal parts of water. Spread the skin and rub while being allowed to air-dry. No extra or wash-out poster. If applying feel burning or itchy skin can wipe the smeared area with moistened cloth with water and then with a dry cloth. In the case of damaged skin oil can cause burning. The maximum recommended daily dose is 5 ml. Do not exceed the recommended daily to-order. Keep away from eye contact and small children.

WHY MAGNESIUM OIL?

The original and still the most popular, Magnesium Oil is the most recommended magnesium oil among health practitioners and nutritionists worldwide — recommended specifically by both Dr. Mark Sircus, Ac. OMD, author of Transdermal Magnesium Therapy and Daniel Reid, author of The Tao of Health and The Tao of Detox.

According to Daniel Reid, bestselling author of The Tao of Health and The Tao of Detox: Of all the sources we've tried, Ancient Minerals is the one that delivers the fastest, most potent therapeutic benefits. It contains essential elements that no longer exist in ocean water today, and is totally free of any toxic contaminant." *

Dr. Carolyn Dean, M.D. N.D., author of the authoritative book on magnesium, The Magnesium Miracle, recommends magnesium oil. She describes it as a a supersaturated magnesium chloride in water, which rubbed on the skin bypasses the intestines as it is absorbed into the tissues of the body. It also stimulates DHEA production that occurs in the skin.

IMPORTANT: 5 ml Magnesium Oil (MgCl2 31%, density 1310 gr / l) = 6,6 g Mg Oil
1 g Mg oil contains 77 mg of pure Mg^{++}
5 ml Magnesium Oil = (6,6 x 77 =) 508 mg of pure Mg 1 Mg tablet 250mg + Vitamin B-complex is equal to 10,3 mmols Mg

MAGNESIUM OIL AND YOUR HEALTH

- A pure and natural cosmetic skin product which helps to compensate for magnesium shortage in the body.

- Provides care for the normal functioning of the nervous and muscular systems.
- Has a positive impact on circulation and helps to facilitate the flow of blood.

- Applying magnesium oil to the skin is known as transdermal magnesium therapy. Rapidly absorbed. Convenient dosing and administration.

- May help in cases of muscle cramps, tension, chronic fatigue, joint pain etc.

ABO PHARMA

For the **well-being** of the **connective tissue**

Procollagen : COMPOSITION

INUTRITION FACTS	
Ingredients	**Per maximum recommended daily dose**
MSM (Methyl sulfonyl methane)	500 mg
Vitamin C	200 mg (250% NRV)
NDF® Natural Dermo Filler	180 mg
Vitamin E	30 mg (250% NRV)

30 tablets **28,5g**
GLUTEN FREE

MSM o **METHYL SULFONYL METHANE** is a biologically active form of sulphur, that is organic sulphur in its natural form. It restores the formation of crosslinks in collagen, preserving their elasticity. It is necessary for the synthesis of many enzymes, hormones, amino acids, antibodies and antioxidant molecules. It is called "the beauty mineral" as it makes the skin clear and young looking and the hair shiny and soft.

VITAMIN C essential cofactor for the synthesis of collagen, stabilizes the double helix of the molecule.

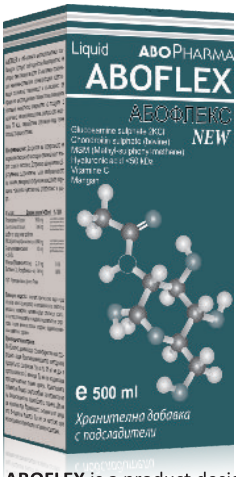

NATURAL DERMO FILLER® contains Silica, structural element of the connective tissue, essential for the formation of macromolecules such as elastin and collagen. It contains Vitamin E with an anti-free radicals effect.

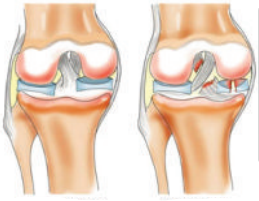

Ingredients: MSM (methyl sulfonyl methane), Vitamin C, NDF® (Natural Dermo Filler – Bamboo (Bambusa vulgaris Schrad. Ex J.C. Wendl:, stem) d.e. enriched in Vitamin E), Bulking agent: micro crystalline cellulose, Anti-caking agents: magnesium stearate, Silicon dioxide.

Directions: The recommended daily dose is 1 to 2 tablets daily.

Recent studies (12, 13, 14) have shown that a correct integration of Vitamin C, Vitamin E, Silica and Sulphur plays an important role in reducing the effects of ageing on the skin, as it protects the structural fibres of collagen from uncontrolled degradation (increased MMPs) and helps maintain the balance at the level of the extracellular matrix.

ABOFLEX
500 мл

Recommended Intake: 30 ml per day can be taken directly or diluted with water. For optimal effect, it is recommended to take the product 2 times 15 ml per day for 3 months. Do not exceed the over-guaranteed daily intake.

Composition / daily intake = 30ml /:
Glucosamine Sulfate-1600 mg; Chondroitin bovine sulphate - 1100 mg; MCM (Methylsulfonyl methane) -1600 mg; Hyaluronic Acid - 95 mg; Manganese (Manganese Chloride) - 2.31 mg; Vitamin C (L-Ascorbic acid) -150 mg

ABOFLEX is a product designed to influence and relieve symptoms associated with musculoskeletal disorders. Efficient formula with well-combined ingredients, supplied in a liquid form for maximum absorption by the body.
It contains low molecular weight hyaluronic acid, making the product very effective and preferred for intake.
Hyaluronic acid is a major component of cartilage. Keeps moisture in the extracellular component of connective tissue and maintains the integrity of the structure of articular cartilage and other intrabody structures.
The unique formula of ABOFLEX also contains manganese, which has anti-inflammatory action and helps with joint pains and sprains. This effect is explained by the antioxidant function of the superoxide dismutase enzyme. People with arthritis have been found to have low levels of this enzyme. Ensuring a sufficient amount of manganese stimulates the synthesis and function of superoxide dismutase, improving the symptoms of arthritis. Manganese helps maintain good bone structure.

ABOFLEX contributes to helping:

✔ discomfort and joint pain;

✔ various inflammatory joint diseases;

✔ helps to increase the range of motion and joint function of coxarthrosis, gonarthrosis;

✔sports and domestic injuries, sprains, sprains, and others.

"**ABOFLEX** contains glucosamine and chondroitin sulphate, Manganese, MCM-methylsulfonyl methane and some other oligoelements." Liquid form is convenient for dosing and wearing anywhere, so there is no risk of inaction. This is the product that contains all the most essential ingredients for nourishing the hyaline cartilage of the joints. Adding to its excellent taste properties, it can reasonably be described as a very well-balanced product that is suitable for people suffering from degenerative joint disease. "
-prof. Zlatimir Kolarov - Professor of Rheumatology. Chairman of the Bulgarian Medical Society for Osteoporosis and Osteoarthrosis.

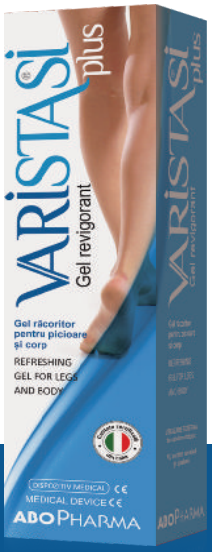

ABOPHARMA

VARISTASI plus - Refreshing Gel for legs and Body

MEDICAL DEVICE

FOR EXTERNAL USE
Dermatologically tested

Petrolatum and parabens free

Ingredients: *Horse chestnut d.e., Centella asiatica d.e., Butcher's broom d.e., Blueberry d.e., Natural menthol, Witch hazel water, Fenugreek d.e., Ethoxylated hydrogenated castor oil.*

Directions: *apply 1-2 times a day to the affected area with a gentle massagge.*

Strengthens and relieves the condition of the limbs in the presence of varicose veins. The product can be used successfully in sciatica, lumbago and arthritis. It relieves the problem zones of the body, which is subjected to stress from daily work or immobilization.

Varistasi plus leg gel, promotes microcirculation and relieves the feeling of tiredness and heaviness in the legs thanks to the synergy between the barrier effect and the function of its active ingredients.

It promotes the drainage of excess fluid and ensures a long-lasting relief from the feeling of swollen and tired legs.

ABO PHARMA

ABO-SELENIUM

guardian of the immune system

Statistics show that every 10th woman suffers from a lack of selenium!

CONTRIBUTES TO :

- Strengthening the immune system / barrier against all kinds of bacterial and viral infections /
- Elimination and prevention of the toxic effects of heavy metals, especially mercury
- Preventing oxidative stress
- Helping the synthesis of thyroid hormones
- The mineral density of the bones and the increase in their strength
- Induction of DNA repair and synthesis in injured cells to help prevent their proliferation
- Normalize the condition of the cardiovascular system
- Delay aging of tissues
- Preventing cells from destruction and carcinogens - so it is recommended for smokers

Composition of 1 capsule:
Selenium / Sodium selenate /: **50µg**

Recommended dosage:
1 capsule daily, not chewed before eating a lot of liquid

Selenium deficiency:

- The most common cause of selenium deficiency in the body is its mild food intake. Getting selenium from food in most cases is not enough.
- In the pursuit of higher yields in agriculture, soils are treated extremely aggressively, as a result of which their content in practice remains very poor in nutrients and minerals. Therefore, the use of additional selenium as a supplement is recommended.

ABOPHARMA

ABO - VITAMIN C Effervescent Tablets

Ideal way to kick start your day

Vitamin C Forte, 1000 mg

Vitamin C
Effervescent Tablets
with lemon flavor.

At the first sign of a cold or flu

1000 mg

Ingredients of 1/2 Table .: Vitamin C (L-Ascorbic Acid) - 0.500 mg
Recommended dosage:
half a tablet per day dissolved in a glass of water

Effervescent tablets allow for fast absorption of Vitamin C into the blood stream. Dissolve quickly in water to make a refreshing lemon flavoured drink.

Functions of Vitamin C:

- Vitamin C contributes to the normal function of the immune system
- Vitamin C contributes to normal collagen formation for the normal function of blood vessels, bones, cartilage, gums, teeth and skin

- vitamin C contributes to normal energy yielding metabolism
- vitamin C contributes to the normal functioning of the nervous system
- vitamin C contributes to normal psychological function

- vitamin C contributes to the protection of cells from oxidative stress
- vitamin C contributes to the reduction of tiredness and fatigue
- vitamin C increases iron absorption

- vitamin C support immune function
- vitamin C help reduce the severity and duration of cold symptoms
- vitamin C maintain skin health and provide healthy antioxidant activity

ABO- ZINK + BIOTIN

A unique formula for beauty and health

Unique product with fast visible effect to improve nail and skin condition within 7 to 10 days of taking it. It can be taken for a long time. There is no danger of overdosing!

Zink

- It helps to re-regulate the activity of the sebaceous glands;
- Helps for protein synthesis;
- It contributes to the normal functioning of the thyroid gland and the production of insulin;
- The total amount of zinc in the body is 2-3 g. It is contained in the largest amount in the liver, kidneys, pancreatic 3 cells, prostate, hair and erythrocytes;
- It contributes to the normal function of the immune system;
- It helps to maintain the normal state of hair, skin and nails as well as the normal flow of fatty acid metabolism.

Biotin

- Biotin promotes the synthesis of vitamin C;
- Our skin, hair and nails need the sulfur it contains, so it can be called - the vitamin of beauty;
- Biotin contributes to metabolism by promoting metabolism and energy production;
- Helps break down and absorb proteins, fats and carbohydrates;
- It also assists the normal functioning of the nervous system and mental function.

Recommended intake:
One capsule daily before a meal with a lot of fluid.

Composition 1 capsule contains:
Zinc - 11.67 mg / Zinc Gluconate / Biotin / D-Biotin / - 100 Ng

ABO - CALCIUM 500mg + Vitamin D3

CALCIUM 500mg + Vitamin D3

20 effervescent tablets of orange flavor

Ingredients: Acidity regulator: citric acid ; calcium carbonate; acidity regulator: sodium hydrogen carbonate E500(ii); sweetener: sodium cyclamate ; flavour; carrier of sweetener: polyethylene glycol 6000; colour: beta-carotene E160a(ii); sweetener: sodium saccharin; vitamin: cholecalciferole (vitamin D_3).

Recommended dosage: Dissolve 1 tablet of Calcium D 500 mg – effervescent tablets in glass of cool water (200 ml). Maximum recommended consumption: 1 tablet daily. Do not exceed the recommended daily dosage.

Description: Dietary supplement Calcium D 500 mg effervescent tablets of orange flavor. Recommended for adults. Enriches daily diet with calcium, vitamin D3.

Adequate calcium in a healthy diet may help prevent osteoporosis but most adults, especially women, fall short of their daily calcium requirements.

Calcium 500 mg with Vitamin D can help maintain and build strong bones and teeth.

Each tablet provides **500 mg of Calcium and 10 µg of Vitamin D3** an essential nutrient for calcium absorption.

One tablet daily, meets recommended daily Calcium requirements for adults age 18 to 50.

Adequate **Calcium and Vitamin D** in a healthful diet is important for teen, young adult and post menopausal women.

Vitamin D improves Calcium absorption. Helps build strong bones and teeth.
May reduce the risk of osteoporosis. Helps support healthy muscle contraction

D-ABOVIT

- *Help to improve Vitamin D deficiency.*
- *Combination between Vitamin D, calcium intake, healthy diet and regular physical exercises helps to improve the condition of people with bone diseases.*
- *Help to maintain bones and teeth in healthy condition.*
- *Vitamin D is involved in regulating the levels of minerals such as phosphorous and calcium, it is used for conditions caused by low levels of phosphorous and low levels of calcium.*

400 I.U.

≈ 100 daily doses

Vitamin D is a vital fat-soluble vitamin. The major natural source of the vitamin is synthesis of cholecalciferol in the skin from cholesterol through a chemical reaction that is dependent on sun exposure. The vitamin D produced from the skin is rapidly absorbed in the blood and could be store in the fatty tissue for months.

Vitamin D was first isolated in early 1920s, nowadays is well known the beneficial functions of the vitamin D on the immune and the nervous systems. There are more then 600 receptors where the Vitamin D acts, including receptors in brain and heart.

Vitamin D turns in powerful steroid hormone when it is activated. Instead it could be considered as a hormone, with activation of the vitamin D pro-hormone resulting in the active form, calcitriol, which then produces effects via a nuclear receptor in multiple different locations.

Hormone activity of Vitamin D is versatile. It is used to maintain the normal health condition of bones and teeth. Vitamin D is used for normal function of the immune system and the muscles. Vitamin D promotes calcium absorption in the gut and maintains adequate serum calcium and phosphate concentrations.

Vitamin D is highly recommended for pregnant women.

According to d-r Komarovski the Vitamin D is effective for preventing and treating rickets. The doctor points out the Vitamin D regulate the levels of calcium and phosphate in the body. Vitamin D deficiency in the first year of baby's life leads to rickets. The doctor pays attention to the fact that the breastfeeding is a primary source of all of the needed substances.

Ingredients: Vitamin D (Cholecalciferol), Stabilizer for the emulsion (solubilisate): Glucose sirup, Carrier: Purified water, Emulsifier: Polysorbate 80, Flavour enhancer: Anice oil, Preservative: Potassium sorbate.

Recommended dosage: one injection in the mouth daily. One injection contains 10 µg (400 IU) Vitamin D3 (200 % of RFI).

ABOPHARMA

ABO - L-Carnitine

Weight reduction

Helps effectively reduce weight loss, give energy

30 capsules
500 mg

The main function of L-carnitine is to serve as a carrier of fatty acids through the cell membrane to reach the mitochondria, where they act as "fuel" for our body's energy. Transition occurs when the fatty molecule is linked to an L-carnitine molecule. The fat molecule is burned and waste products are produced. L-carnitine binds to them and passes them back through the cell wall of the cell. The action of L-carnitine, on the one hand, fills the fat in the cage and, on the other hand, takes unnecessary products.

L-carnitine is involved in branched-chain amino acid oxidation, prevents the formation of lactic acid in our muscles and blocks substances that break down the cell wall. L-Carnitine increases the supply of oxygen to the muscles and strengthens energy without degrading the valuable proteins.

- Supports effective weight loss, gives energy
- Helps to increase mental and physical fitness and promotes the approval of metabolism in the body
- It helps to improve the energy supply of the heart muscle
- It helps to improve the emotional state
- Helps purify the body from harmful ingredients and radicals accumulated as a result of metabolism.

Can be taken by diabetics and overweight.

Composition of 1 capsule: L-carnitine (L-carnitine tartrate) - 500 mg.

Recommended dosage: 2 capsules a day with plenty of fluids 30-60 minutes before training or at bedtime. Recommended in combination with diet and appropriate exercise regimen.
Do not exceed the recommended daily dose.

ABOPHARMA

ABO - VENTRO LAX

In case of chronic and habitual constipation

FOOD SUPPLEMENT

with and **Senna, Buckthorn, Aloe**
useful to favour intestinal transit.

It contains mixtures of selected and wisely dosed plant extracts. Powders, pressed and dried, are combined according to an ancient receipe, in order to stimulate intestinal transit.

NUTRITION FACTS	
Ingredients	**Per maximum recommended daily dose**
Senna	980 mg
Buckthorn	480 mg
Aloe	300 mg
Rhubarb	80 mg
Mallow	40 mg
Vervain	40 mg
Cinnamon	40 mg
Clove	40 mg

Highly effective, even for the most stubborn forms

Stregths

Gentle and effective laxative
Rich in softening mucilaginous substances
Aids digestion
Gives relief from swelling and fermentation

Directions: The recommended daily dose is 1-4 granules daily, swallowed with water, preferably in the evening.

Warnings: Do not take the product during pregnancy and breastfeeding.

LINOPROST - Prostate functionality and healthy urinary tract

Content per daily dose:	in 1 tablet
Saw palmetto	250 mg
Nettle	150 mg
Pygeum africanum	100 mg
Lycopene	6.6 mg

GLUTEN FREE

30 tablets

Ingredients: Saw palmetto (Serenoa serrulata, Hook. F.) fruit dry extract titrated at 45% in fatty acids, Nettle (Urtica dioica L.) root dry extract titrated at 0.8% in Beta-sitosterol, Pygeum (Pygeum africanum Hook. F.) bark dry extract, Tomato (Solanum Lycopersicum L.) fruit dry extract titrated at 10% in lycopene.

Recommended dose: 1 tablet a day.
Continuous use of the product significantly improves BPH symptoms and prevents its complications.

Definition of BPH (Benign Prostatic Hyperplasia)

BPH is an evolutionary disease characterized by enlarged prostate (Fig. 1) involving symptoms to the lower urinary tract, which interfere with the quality of life of male subjects. This disease affects 40% of subjects aged 50 (a percentage that grows with ageing).

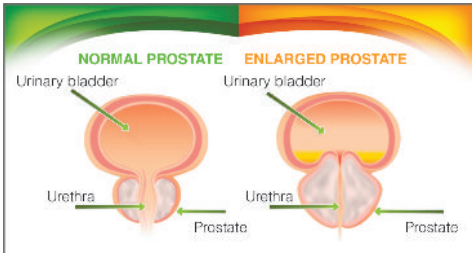

Figura 1.
Schematization of prostate gland in normal condition and with BPH.

Pay attention to symptoms:
- Difficulty and effort in starting urination
- Weak or interrupted urine flow
- Urine dripping after urination
- Feeling of incomplete emptying of the bladder
- Frequent need to urinate, especially during the night
- Urge to urinate
- Burning during urination

If not diagnosed and treated, they can lead to complications such as:
- Urine retention
- Bacterial infections (urethritis, cystitis, prostatitis)
- Stone formation
- Sexual disorders: erectile dysfunction, retrograde ejaculation

ABOPHARMA

XANACID - For stomach acids

Ingredients: Calcium carbonate, magnesium hydroxide, Xanacid® [Aloe barbadensis gel, Althaea officinalis L. root d.e, Malva sylvestris L. leaves d.e.], maltodextrins, cellulose, silicon dioxide, magnesium stearate, orange flavour, steviol glycosides (Stevia rebaudiana).

MEDICAL DEVICE

Xanacid® chewable tablets is a Medical Device formulated to counteract the symptoms of irritation of the gastric mucosa: pain, burning and sense of acidity.

Xanacid® acts by forming a barrier that protects the mucosa from the attack of the gastric juices. Thanks to its plant complex, Xanacid® Medical Device has a protective and soothing action on the mucosa, while its mineral component counteracts the acid pH.

The plant complex of **Xanacid®** Medical device also helps to counteract gastro-oesophageal reflux.

Directions: Dissolve one tablet in the mouth as needed. In case of gastrooesophageal reflux take one tablet after meals and one at bedtime. It is possible to repeat the assumption several times a day even at short intervals if necessary.

Warnings: carefully read the instructions before use and ensure that the leaflet is stored with the product. Keep away from children.

Storage: store in a cool, dry place, away from heat sources, at a temperature below 25°C. The expiry date is referred to product in its intact correctly stored package.

Medical Device classified and manufactured in compliance with Dir 93/42/EEC and subsequent modifications and integrations.

ABO- RUHE

powerful natural combination for sleep

24 capsules

ABO-RUHE is a natural sleeping combination containing (100 mg), extract of hop cones (30 mg) and L-thiamin (100 mg), Magnesium (50 mg), Vitamin B6 (1 mg), optimal extract ratio of valerian root (100 mg). It helps to increase the activity of alpha waves, which are the "brain waves of sleep and relaxation", helps to limit night wakes and contributes to the feeling of freshness and rest after sleep.

L-thiamin

- gamma-ethylamino-L-glutamic acid extracted from green tea (Camellia japonica, Camellia sinensis)

- promotes the formation of alpha waves in the brain, pre-initiating states of long-term relaxation without causing sleepiness

- promotes the production of inhibitors by gamma-aminosuccinic acid neurotransmitters (GABA), increasing its levels in the body

- contributes to reducing mental and physical stress

- helps reduce sleep time

- has a beneficial effect on the symptoms of pre-syndrome syndrome

- contributes to maintaining a normal blood cholesterol concentration

Extract from Valeriana's roots

- the active ingredient-valerianic acid has the so-called "balancing effect"

- in the excited state of the nervous system - aids the enhancement of retarded processes in the cerebrum

- in fatigue - helps to normalize the nervous system

Extract of Hops Cones

The extract of hop shoots:
- has antiseptic action
- contributes to reducing the feeling of tiredness and fatigue
- has an estrogenic effect
- contributes to the normal functioning of the nervous system

Recommended Intake:

To help keep the central nervous system in a calm state
- 2 capsules 1-3 times a day with liquid without chewing

To help reduce sleep time in the evening
- 2 capsules about 1 hour before bed with liquid without chewing.

Do not consume more than 6 capsules a day!
It does not cause dependence!
It can be used by drivers, people working with machines and hyperactive children over 12 years of age. with a recommended daily intake of 1 capsule 1-2 times a day without chewing

ABOPHARMA

ABO - ABOGERIT - a complex of Vit. A + Vit E

Recommended intake:
For adults and children over 6 years
1 capsule daily

25 capsules

Vitamin A contributes to:

- the normal function of the immune system
- the normal metabolism of iron
- maintaining the normal mucosal state
- maintaining normal skin and vision
- participates in the process of cell specialization

Vitamin E contributes to:

- protecting cells from oxidative stress
- stimulating hair growth and improving the condition of the skin
- delaying aging and pigmentation on the skin
- delaying the formation of free radicals in the body

Composition 1 capsule: Vitamin A / Retinyl palmitate / - 1500 µg RE / 5000 IU / 188%; Vitamin E (D-alpha tocopherol) - 67mg a-TE / 100 IU / 560%; Soybean oil - 22.06 mg

ABO-VISION

the formula for excellent vision

New formula with lutein, zeaxanthin, black bilberry, zinc, vitamin E and vitamin C

Composition of 1 capsule:	*PDP
Lutein	34 mg
Zeaxantin	6.8 mg
Cranberry extract	50 mg
Vitamin E /D-alpha tocopherol/	36 mg α-TE (300%PDP)
Zinc /Zinc Sulphate/	15mg (150%PDP)
Vitamin C (L-ascorbic acid)	30mg (38%PDP)

* PDP - recommended daily dosage

Recommended intake: *1 capsule daily after a meal for at least 3 months without interruption.*

To ensure the care of your eyes, take it ABO Vision at least once a year for 2-3 months per 1 capsule per day.

To maintain normal vision, our body needs Lutein and Zeaxanthin. They are the two natural carotenoids contained in the retina and necessary for the optic optic function and the strengthening of the capillaries.

- They help to absorb the light from the blue area of the visible spectrum - the rays with the most harmful wavelengths that the retina is usually exposed to.
- They are absorbed about 5 times better than beta-carotene.
- Lutein builds up on the entire retina, while zeaxanthin - mostly in the macula.

Studies show that higher dietary intake of lutein and zeaxanthin helps reduce the risk of cataracts and age-related macular degeneration.

- Blackberries occupies the first place among foods for a favorable effect on the eyes. The anthocyans it contains contribute to the acceleration of the regeneration of the pigment ropopsin in retinal photoreceptor cells. This helps to adjust the eyes to light and darkness.
- The activity of vitamin A in it helps to neutralize the action of free radicals. Vitamin A deficiency leads to night blindness as he participates in phototransduction.
- Cranberry helps to avoid macular degeneration of the retina and helps improve visual acuity.

- Vitamin E contributes to the protection of cells from oxidative stress. Protects other fat-soluble vitamins from oxidation, helping to absorb vit. A and vitamin C.

Eye damage factors:

- computer work
- watching TV
- driving at night
- dry and dirty air
- cigarette smoke
- use of alcohol
- radiation
- ultraviolet sunny broadcasting

ABO PHARMA

ABO - Aloe Vera, (Barbadensis Miller)

1000 ml

Drinking gel with
91% Aloe Vera juice and 9% honey

ingredients	100 ml	60 ml	*ПДП
Aloe Vera	91 ml	54.6 ml	
Vitamin C	133 mg	80 mg	133 %
honey	9 ml	5.4 ml	

Recommended Intake:
Take 3 times a day, 20 ml each, alone or mixed with water or other juice. In case of inability to take 3 times a day, it can be taken 2 times 30 ml.

The combined action and nutrient balance of the plant have a more powerful joint effect than can be expected from a mechanical aggregation of the individual ingredients. This is due to the fact that they help each other - an effect known as synergy.

Aloe Vera juice is a combination of honey - a source of fast-releasing energy and song-savvy eughe-hydrate.

- In daily consumption, it has a favorable effect on the motor activity of the gastrointestinal tract and the secretion of the stomach and intestines.
- An aid in inflammatory processes of the skin and mucous membranes.
- It is also used as a dietary and liver-enhancing agent as it helps to provide carbohydrates for glycogen synthesis.
- Aloe Vera also has adaptogenic properties, ie. contributes to the reinforcement of the body's overall resistance to harmful influences such as infections and stress.

The juice from the heart of Aloe Vera - an invaluable gift from the gods, giving the body precious building blocks. It contains about 160 known ingredients useful for the body.

Today, over 200 varieties of Aloe are known, but the most valuable of these are Aloe Barbadensis Miller.

Its gel contains a cocktail of useful and active substances: mannan, polymanan, antraquinone, C-glycosides, anthrone and lectin. It contains 20 minerals, 18 amino acids and 12 vitamins.

Aloe Vera for:

- maintaining the normal blood cholesterol concentration
  maintaining normal blood pressure;
- maintaining normal blood pressure;
- normal function of the digestive tract;
- normal blood formation;
- protecting the body from stress.

ABOPHARMA

Natural products for exterior use

GLYUKOSTAVIT

Massage Active Gel.
Refreshes, relaxes and reduces the feeling of discomfort.

150 ml

- Softens and tones the skin.
